

Here's How The Toilet Rebate Program Works

- Rebates only apply to single-family residential homes built prior to 1994.
- Applicant must have a residential water-use account with the City of Villa Rica and must be in good financial standing with CITY OF VILLA RICA.
- The purchased toilet(s) must be installed in a home served water by CITY OF VILLA RICA and owned by the Applicant.
- The amount of the rebates will be \$50 per Ultra Low-Flow Toilets and \$100 per High Efficiency Toilets.
- The program is limited to two toilets per Applicant with a maximum total rebate of \$200. • Only toilets purchased on or after November 1, 2010 are eligible, and they must be listed on the Approved Toilet Lists posted on CITY OF VILLA RICA's website or available in the lobby of the CITY OF VILLA RICA City Hall.
- The old toilet must be disposed of in such a way as to prevent the re-installation of the toilet. Customers should call their garbage service provider for locations of drop-off sites or to inquire about curbside pick-up services. The Cedar Mountain Landfill will accept your old toilet for disposal.
- Applicant must complete an Application either downloaded from CITY OF VILLA RICA's website, or picked up in the lobby of the CITY OF VILLA RICA City Hall.
- The Application, along with the **ORIGINAL** purchase receipt, must be mailed or hand delivered to the address appearing on the Application.
- Applications will be reviewed by a CITY OF VILLA RICA employee and upon approval a rebate check will be processed and mailed to the Applicant's mailing address normally within 2-4 weeks.
- An installation verification visit may be conducted to ensure your efficient toilet(s) have been installed.
